

Introducing our **MOST INTELLIGENT** hearing aids yet...

**Experience the difference
every day** – Hearing Australia's
new XG and XH range

Less background noise, more meaningful conversations – **AI makes the difference**

Our new XG microRIE

For a listening and sound experience that is as unique as your hearing – our new premium rechargeable device features **AI-assisted hearing technology** that works with your ears and natural sound processors to deliver a more vivid sound experience than ever.¹

Experience a hearing aid that truly understands your listening preferences in noisy environments. With AI as your hearing partner, this advanced technology – **trained with 3.5 million spoken sentences²** – intelligently adapts and adjusts to reduce background noise... **so you can focus on the sounds and conversations that matter most.**

And the best part? The power is in your hands. With the ability to turn AI features on or off, you're always in control.

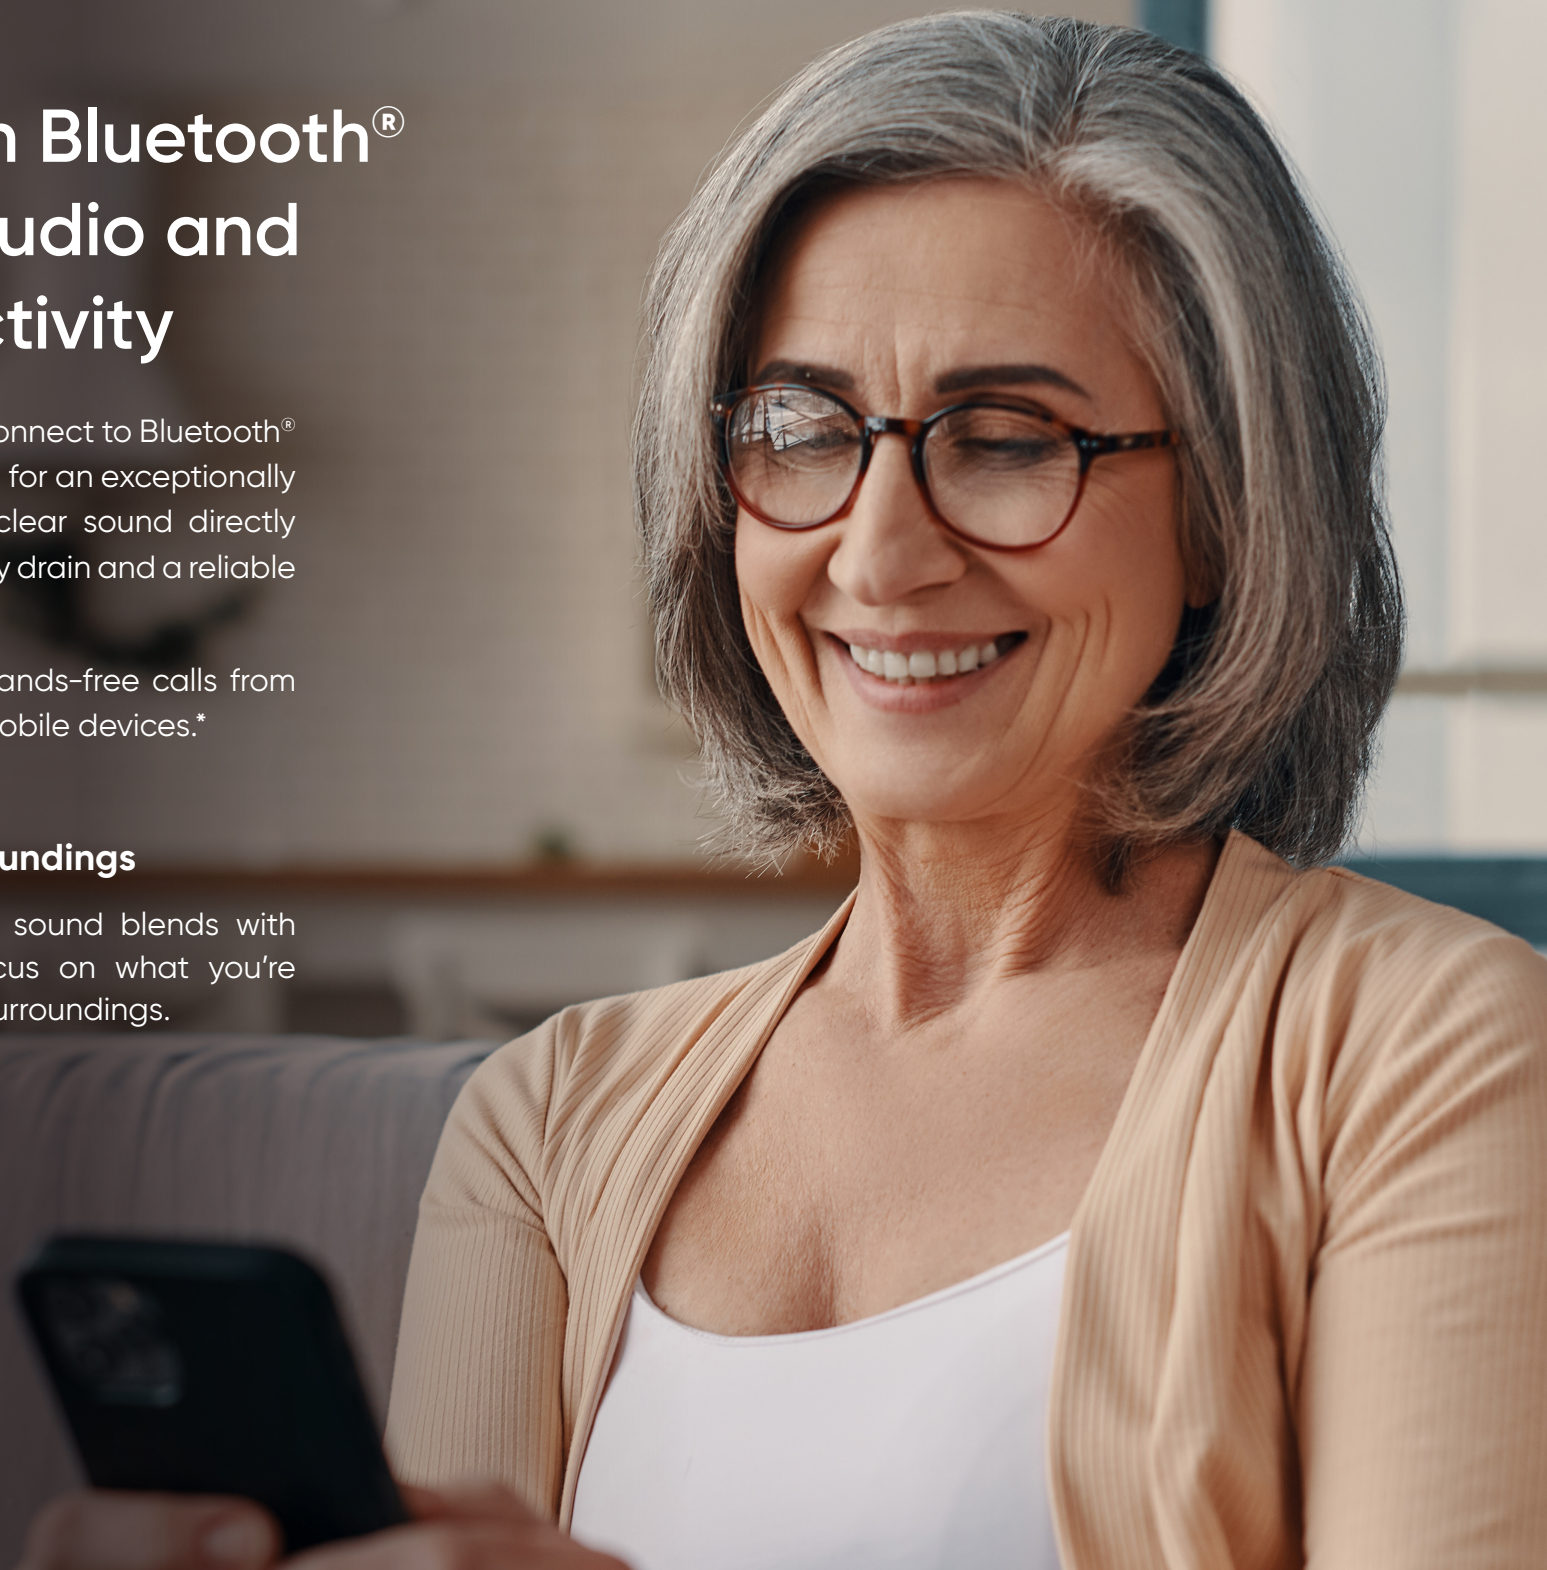

Future-ready with Bluetooth® Low Energy (LE) Audio and Auracast™ connectivity

With our innovative new range you can connect to Bluetooth® LE Audio and Auracast™ broadcast audio for an exceptionally clear listening experience. Enjoy vivid, clear sound directly through your hearing aids with low battery drain and a reliable connection.

Plus, tap your hearing aids to answer hands-free calls from iPhone, iPad and compatible Android™ mobile devices.*

Your sound, your way – balance streaming with your surroundings

You're in control of how the streamed sound blends with environmental sounds, so you can focus on what you're listening to while staying aware of your surroundings.

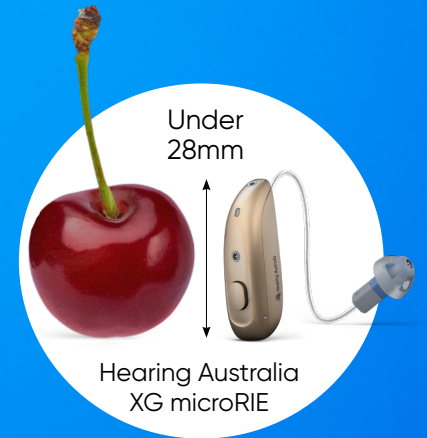

Clarity and quality in a crowd

Our latest XG and XH range is tried, tested and proven to cut through background noise and improve sound quality when listening in noisy environments.^{3,4}

Discreet styles – without compromise

There's no trade-off between size and technology, the XG microRIE in our latest range, is the smallest AI rechargeable hearing aid (RIE) ⁵– delivering advanced performance³ in a compact, discreet design.

Long-lasting battery for uninterrupted hearing

Designed to keep up with your active lifestyle, our rechargeable styles have a 20-hour battery[^] even when streaming.

Weatherproof IP68 certified⁶ – so keeps performing rain or shine

Our latest range is designed for durability and comfortable fit, performing in all weather conditions thanks to IP68-rated designs.⁶

Elegance in every shade—explore our XG range of colours

From timeless neutrals to rich, contemporary tones - including our new Navy Blue - each colour in our new range has been carefully chosen to offer versatility and sophistication. Whether you're looking for subtle skin tones for a discreet choice or a modern statement, our latest range provides the perfect balance of style and refinement.

Our XH range is available in the fashionable colours below

Rechargeable metallics

Battery-powered matts

Thank you for choosing Hearing Australia

Hearing Australia has been providing expert hearing care to Australians for over 75 years, helping thousands of children, adults, Aboriginal and Torres Strait Islanders peoples, pensioners and veterans stay connected with their families and communities each and every week.

Now, more than ever, good hearing is important to keep you in touch with your loved ones and stay connected to the world around you. With expert clinicians, we offer services through telehealth, online, in home and in centre across over 180 locations Australia-wide. Our goal is to keep you connected to the people and life you love.

No matter your age, no matter your hearing need, we make hearing easier for everyone.

*Hands-free calls are compatible with iPhone 11 or later, iPad Pro 12.9-inch (5th generation), iPad Pro 11-inch (3rd generation), iPad Air (4th generation), iPad mini (6th generation), iPad (10th generation) or later, with software updates iOS 15.3 and iPadOS 15.3 or later. Bluetooth LE Audio works with Hearing Australia Essential Plus, Select, Advanced and Premium hearing aids and compatible mobile devices with Bluetooth 5.3 or later. Check compatibility on [Hearing Australia - App Compatibility Guide - Hearing Australia](#)

^All-day battery on one charge is based on an average use time of 20 hours, streaming 50% of the time
