

HOW TO MAKE A PAPER BALL

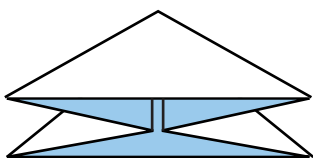

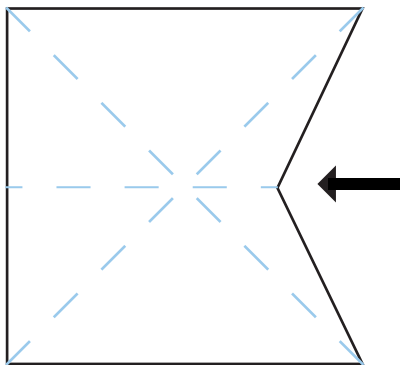

1. Fold a square piece of paper diagonally from both corners to make an X as the crease.

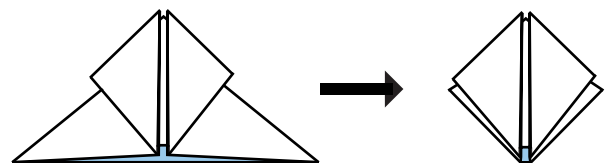

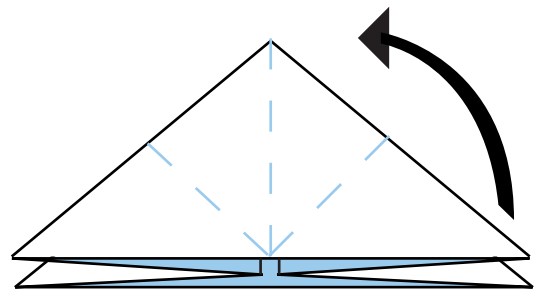

2. Fold the paper in half.

3. Fold the sides inwards so that the paper collapses as shown below.

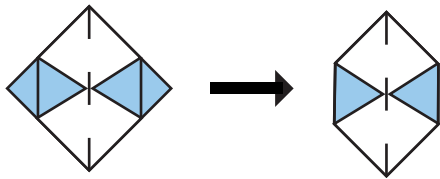

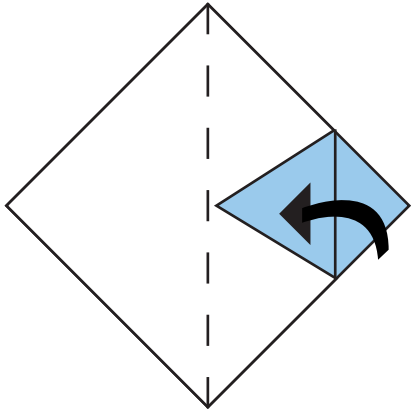

4. Fold the two flaps to the top corner to make a diamond shape. Flip the paper and repeat the step.

5. Fold the right and left corners to the center of the diamond. Flip the paper and repeat the step.

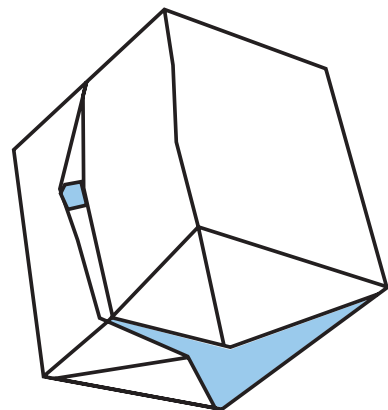

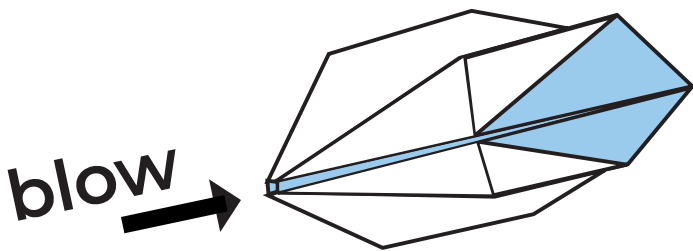

6. Create a pocket. Fold the corners inside the pockets made. Flip the paper and repeat the step.

7. Spread out all the flaps and blow into the hole at the top.

8. Now take your paper ball outside and play catch!
